The Tell Atlas (Arabic: تال التل) is a mountain chain over 1,500 km (932 mi) in length, belonging to the Atlas mountain ranges in North Africa, stretching from Morocco, through Algeria to Tunisia.. The ranges of this system have average elevations of about 1,500 m (4,900 ft) and form a natural barrier between the Mediterranean and the Sahara.

Atlas World Group International conducted 6,394 international household goods moves in 2018, down slightly from 7,748 in 2017. "It is integral for not only the moving industry, but also our nation, to track domestic and international migration patterns to better understand why and where individuals are relocating," said Jack Griffin, Chairman and CEO of Atlas World Group.

Antarctica is the southernmost continent and includes the South Pole. Geographic sources disagree as to whether it is surrounded by the Southern Ocean or the South Pacific Ocean, South Atlantic Ocean, and Indian Ocean. It is divided by the Transantarctic Mountains. On average, it is the coldest ...
