The Authenticity Paradox - Harvard Business Review

Authentication (from Greek: ?????????? authentikos, "real, genuine", from ?????????? authentes, "author") is the act of confirming the truth of an attribute of a single piece of data claimed true by an entity. In contrast with identification, which refers to the act of stating or otherwise indicating a claim purportedly attesting to a person or thing's identity, authentication ...

Introduction. According to Kuhn, a “basic concept” within any discipline is an idea accepted “once and for all” by all members of its community (1970:17-18). The myriad discussions of authenticity within tourism literature, earlier surveyed by Wang (1999), indicate that, in Kuhnian terms at least, it is not yet a basic concept, a singular idea accepted once and for all.

There are leaders and there are those who lead. Start With Why is about a naturally occurring pattern, a way of thinking, acting and communicating that gives some leaders the ability to inspire those around them. The more organisations and people who learn to also start with WHY, the more people there will be who wake up feeling fulfilled by the work they do.
